LIABLE TO JAIL.

Two Thousand Citizens Who Have
Neglected to Pay the Personal Tax.

Two thousand men in the city of Willimantic and the town of Windham are liable to arrest and imprisonment. The last legal day for the payment of the personal tax was Thursday, and to midnight of that day they had not paid more than six hundred men living in the town of Windham had paid their personal tax of \$1 mandatory under the new law, as outlined in Chapter 242 of the Public Acts of 1909, therefore leaving approximately 2,000 men who have failed to conform with the law.

Under the existing law the court has no discretion in the matter, but must demand all delinquents to jail to work off the tax, together with the costs of the action instituted against all men failing to pay their personal tax. No matter what the nationality of a man is, or if he is an alien, if he resides within the limits of the town of Windham on the first of last November, he is liable for the tax. Unless the 2,000 who have not paid their tax do so immediately the special collector of the personal tax, Robert O. Snow, whose office is in Room 2 of the Murray building, will turn over all names to the prosecuting agent, E. Frank Bugbee, and writs will be issued and served and the men haled into court just as fast as action can be brought. The collector has no alternative. He is appointed to collect the tax for a term of four years by the board of selectmen, as provided by statute law, and proposes to fulfill his complete duty. The tax is payable on demand, the legal time having expired.

RANGE SITE

Selected Near Location of Old Rifle Range.

Col. Edward Schulze, inspector general of the C. N. & G. was in Willimantic Friday and with Capt. P. J. Sullivan of Company L went down to the site of the old rifle range near the New or Natchaug bridge and spotted out a range that will be used by Company L and by other companies for practice. The present range is owned by contractors to look over the site and the necessary pits, etc., will soon be completed. It is understood that the American Thread company has given permission for the range to be relocated at the site of the former range, that has not been used in a number of years.

Company L has been laboring under a great disadvantage for years in not having a place to try out a rifle and consequently its personnel has not been able to qualify for as high scores as will now be possible in the future. There are a number of crack shots in the outfit and with the establishment of a range in this city all the members will be able to improve their marksmanship.

SLAVERY IN THIS STATE.

Address by F. C. Norton at State Prison on Part of G. C. Friday Services.

Frederick C. Norton of Bristol delivered an address on "Negro Slavery in Connecticut" at the Connecticut state prison at Waterbury on Friday morning, as a part of the Good Friday services. The address was a powerful and stirring appeal for the abolition of slavery.

Mr. Norton gave historic data pertinent to slave holding in Connecticut, showing that the first slave was brought into the state in 1639. It was formerly abolished in 1845. The owners in this state were taken and rarely brutal. Indiana, taken in 1816, were the first to be enslaved. Sixty was the largest number of negroes ever held here by any one person, and the first to be enslaved. Another interesting part of the address was the description of the mock elections whereby the negro slaves in each town chose their "governor."

There were 25,507 patents issued by the patent office at Washington last year and 22,708 expired.
